**Why are you running for this office?**

I bring a strong voice to our state's Capitol. South Texas has often been neglected and I am determined to get District 41 its fair share.

**What are your qualifications?**

My first term in office, along with skills from my profession and participation in leadership conferences, have proven invaluable in becoming an effective legislator.

**What would be your first two priorities if elected?**

Education and Healthcare. As it has often been said, education is the key to success and without an educated workforce, we will not progress as individuals or as an area that contributes greatly to this state. Without our health, we have nothing. I also pledge to remain accessible to my constituents.
